Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

## 1. Corporate information

Americas Gold and Silver Corporation (the "Company") was incorporated under the Canada Business Corporations Act on May 12, 1998 and conducts mining exploration, development and production in the Americas. The address of the Company's registered office is 145 King Street West, Suite 2870, Toronto, Ontario, Canada, M5H 1J8. The Company's common shares are listed on the Toronto Stock Exchange under the symbol "USA" and on the New York Stock Exchange American under the symbol "USAS".

The condensed interim consolidated financial statements of the Company for the three months ended March 31, 2021 were approved and authorized for issue by the Board of Directors of the Company on May 16, 2021.

The Company has been closely monitoring developments in the COVID-19 outbreak declared as a global pandemic on March 11, 2020. Preventive measures to ensure the safety of the Company's workforce and local communities have been implemented and there have been no outbreaks of COVID-19 at any of the Company's operations to date. All of the Company's mining and corporate operations continue to operate with the exception of mining operations in Cosalá halted by an illegal blockade. The Company continues to manage and respond to COVID-19 to mitigate and minimize potential impacts of this global pandemic, in addition to other uncertainties, such as the price of commodities, gold production from the Relief Canyon Mine, and illegal blockade at the Cosalá Operations.

### 2. Basis of presentation and going concern

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC") which the Canadian Accounting Standards Board has approved for incorporation into Part 1 of the Handbook of Chartered Professional Accountants of Canada applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34, Interim Financial Reporting. These condensed interim consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the Company's annual consolidated financial statements as at and for the year ended December 31, 2020. In particular, the Company's significant accounting policies were summarized in Note 3 of the consolidated financial statements for the year ended December 31, 2020, and further updated in Note 3 of these financial statements, and have been consistently applied in the preparation of these condensed interim consolidated financial statements.

These unaudited condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assume that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due for the foreseeable future. The Company had a working capital deficit of \$0.2 million, including cash and cash equivalents of \$4.1 million as at March 31, 2021. During the three-month period ended March 31, 2021, the Company reported a net loss of \$91.8 million, consisting of inventory write-downs, and an impairment to property, plant, and equipment of \$27.4 million and \$55.6 million, respectively. At March 31, 2021, the Company does not have sufficient liquidity on hand to fund its operations for the next twelve months and will require further financing to meet its financial obligations and execute on its business plans at its mining operations.

The Company is progressing the Relief Canyon Mine to full production after declaring commercial production on January 11, 2021, however operational performance has been inconsistent since that time. Differences observed between the modelled (planned) and mined (actual) ore tonnage and carbonaceous material identified in the early phases of the mine plan resulted in significantly lower than previously expected cash flows and gold production at the Relief Canyon Mine. The Company is also attempting to resolve the illegal blockade at the Cosalá Operations that was announced on February 3, 2020.

Continuance as a going concern is dependent upon a company's ability to achieve profitable operations, obtain adequate equity or debt financing, or, alternatively, dispose of its non-core properties on an advantageous basis, among other things. During 2020 and early 2021, the Company was successful in raising funds through equity offerings, debt arrangements, a convertible debenture, and registered a shelf prospectus in January 2021. The Company announced a \$12.5 million CAD convertible debenture on April 29, 2021 (see Note 20) and intends to commence an at-the-market equity offering on the New York Stock Exchange American in May 2021 for gross

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

proceeds of up to \$50 million to fund the Company's planned operations, and believes it will be able to raise additional financing as needed. While it has been successful in the past in obtaining financing for its operations, there is no assurance that it will be able to obtain adequate financing in the future. The ability to raise additional financing, to achieve sustaining production levels at the Relief Canyon Mine, and restart production at the Cosalá Operations in the near term, allowing the Company to generate sufficient operating cash flows, are significant judgments in these consolidated financial statements.

As a result, several material uncertainties cast significant doubt upon the going concern assumption, including gold production and related positive cash flows at the Relief Canyon Mine, timing of the restart of mining at the Cosalá Operations, and ability to raise additional funds as necessary to fund these operations and meet obligations as they come due.

These unaudited condensed interim consolidated financial statements do not reflect any adjustments to carrying values of assets and liabilities and the reported expenses and condensed interim consolidated statement of financial position classification that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

#### 3. Changes in accounting policies and recent accounting pronouncements

The following are future changes in accounting policies not yet effective as at March 31, 2021:

# (i) Property, plant and equipment

Amendments to IAS 16 - *Property, Plant and Equipment — Proceeds before Intended Use* - The standard is amended to prohibit deducting from the cost of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, the Company recognizes the proceeds from selling such items, and the cost of producing those items, in profit or loss. The amendments to IAS 16 are effective for annual periods beginning on or after January 1, 2022, with early adoption permitted. The amendments apply retrospectively only to property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the financial statements in which the Company first applies the amendments. The Company is assessing the impact of the amendments on the consolidated financial statements and will not be adopting the amendments early.

The following are new accounting policies, in addition to the significant accounting policies summarized in Note 3 of the consolidated financial statements for the year ended December 31, 2020, adopted effective January 11, 2021 upon commercial production declaration of the Relief Canyon Mine:

## (i) Revenue recognition

The Company recognizes revenue when control of finished gold and silver, shipped in doré form, has transferred to the customer. The sale price is fixed on the date of sale primarily based on the gold and silver spot price in the London spot market.

## (ii) Inventories

Finished goods, in-circuit work in progress, and ore on leach pads are valued at the lower of cost and estimated net realizable value. Cost for in-circuit work in progress and ore on leach pads includes all direct costs incurred in production including direct labour and materials, freight, depreciation and amortization and directly attributable overhead costs determined on a first in, first out method. Net realizable value is calculated as the estimated price at the time of sale based on prevailing and future metal prices less estimated future production costs to convert inventories into saleable form.

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

# 4. Significant accounting judgments and estimates

The preparation of the condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments and estimates that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ significantly from those estimates.

In preparing these condensed interim consolidated financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Company's annual consolidated financial statements as at and for the year ended December 31, 2020, in addition to the significant judgments mentioned in Note 2.

## 5. Trade and other receivables

|                              | N  | March 31,<br>2021 | Dece | mber 31,<br>2020 |
|------------------------------|----|-------------------|------|------------------|
| Trade receivables            | \$ | 2,812             | \$   | 2,761            |
| Value added taxes receivable |    | 2,100             |      | 1,916            |
| Other receivables            |    | 546               |      | 425              |
|                              | \$ | 5,458             | \$   | 5,102            |

#### 6. Inventories

|                             | <br>March 31,<br>2021 | Dece | ember 31,<br>2020 |
|-----------------------------|-----------------------|------|-------------------|
| Concentrates                | \$<br>2,145           | \$   | 2,327             |
| Finished goods              | 193                   |      | -                 |
| In-circuit work in progress | 377                   |      | -                 |
| Ore on leach pads           | 6,850                 |      | -                 |
| Current ore stockpiles      | 1,803                 |      | 607               |
| Spare parts and supplies    | <br>5,161             |      | 5,135             |
|                             | 16,529                |      | 8,069             |
| Long-term ore stockpiles    | <br>1,339             |      | 1,339             |
|                             | \$<br>17,868          | \$   | 9,408             |

Effective January 11, 2021, the Relief Canyon Mine declared commercial production resulting in the transfer of \$29.3 million from non-producing properties to inventories based on expected recoverable ounces of gold from the leaching process. Subsequently, during the three-month period ended March 31, 2021, the Company recorded a \$4.4 million write-down to net realizable value of inventories based on quarter-end spot prices, and lowered the expected gold recoveries of its existing ore on leach pads due to identification of carbonaceous material resulting in an inventory write-down of \$23.0 million.

The amount of inventories recognized in cost of sales was \$37.5 million during the three-month period ended March 31, 2021 (2020: \$9.8 million), including concentrates, ore on leach pads, and ore stockpiles write-down to net realizable value of \$27.4 million (2020: \$0.7 million), and spare parts and supplies write-down to net realizable value of nil (2020: nil).

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

## 7. Property, plant and equipment

|  |               |    |             |               |              | Corporate |               |

| Balance at March 31, 2021              | \$<br>96,853  | \$ | -           | \$<br>50,767  | \$<br>4,762  | \$<br>100 | \$<br>152,482 |
| Carrying value                         |               |    |             |               |              |           |               |
| at December 31, 2020                   | \$<br>74,369  | \$ | 108,341     | \$<br>67,142  | \$<br>9,316  | \$<br>151 | \$<br>259,319 |
| at March 31, 2021                      | \$<br>100,555 | \$ | 12,441      | \$<br>55,544  | \$<br>5,219  | \$<br>143 | \$<br>173,902 |

Effective January 11, 2021, the Relief Canyon Mine declared commercial production which the Company defined as operating at an average of 60% targeted capacity within its mining feasibility study. As a result, the Company transferred from non-producing properties \$29.3 million and \$67.6 million in net book value to inventories and mining interests, respectively.

Non-current assets are tested for impairment or impairment reversals when events or changes in circumstances suggest that the carrying amount may not be recoverable. Impairment indicators were identified during the threemonth period ended March 31, 2021 from gold production of the Relief Canyon Mine due to differences observed between the modelled (planned) and mined (actual) ore tonnage and carbonaceous material identified in the early phases of the mine plan. The Company assessed the recoverability of the carrying amount of the cash-generating unit and an impairment to the \$121.8 million carrying value of the Relief Canyon Mine was identified. The Company recorded an impairment loss of \$55.6 million which is allocated against mineral interests of \$41.2 million, plant and equipment of \$10.7 million, and right-of-use lease assets of \$3.7 million relating to the Relief Canyon Mine as at March 31, 2021. The \$66.2 million recoverable amount of the Relief Canyon Mine's net assets was determined based on the after-tax discounted cash flows expected to be derived from this property's fair-market value less estimated costs to sell. The after-tax discounted cash flows were determined based on an updated life-of-mine cash flow projection which incorporate management's best estimates of commodity prices, future capital requirements and production costs along with geological assumptions and judgments made in estimating the size, grade and recovery of the ore bodies. The carrying amounts of mineral interests, plant and equipment, and right-of-use lease assets from the Relief Canyon Mine after impairments is approximately \$26.2 million, \$31.3 million, and \$5.0 million, respectively, as at March 31, 2021.

Fair value models are considered to be Level 3 within the fair value hierarchy. Key assumptions used in Relief Canyon Mine's fair value model as at March 31, 2021 include estimation of production profile and reserves from its life-of-mine plan, operating and capital costs to extract the reserves, discount rate of 6-8% based on the Company's weighted average cost of capital, gold price from \$1,860 per ounce in 2021 down to \$1,608 per ounce in 2025 and beyond based on observable market data including spot price and industry analyst consensus, and mine life of up to 5 years. An increase and decrease in discount rate of 1% would impact the recoverable amount by estimates of approximately \$2.3 million decrease and \$2.4 million increase, respectively, an increase and decrease in gold recovery rate of 1% would impact the recoverable amount by estimates of approximately \$4.7 million increase and \$4.7 million decrease, respectively, and an increase and decrease in long-term gold price of \$100 per ounce would impact the recoverable amount by estimates of approximately \$16.6 million increase and \$17.3 million decrease, respectively. This impairment was assessed on the extrapolation of limited data from the initial phases of mining

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

onto the remaining mining phases with additional leaching test work and the re-assaying of historic exploration pulps ongoing. As additional information becomes available, further impairment tests for the cash-generating unit may be required, possibly on a quarterly basis. If a subsequent impairment test indicated further changes in the expected cash flows, gold production, and commodity prices, it could result in a material recovery or impairment to the carrying amount.

The Company also performed an impairment assessment for the Cosalá Operations given the continued illegal blockade and concluded no impairment charge was necessary.

On March 2, 2017, the Company entered into an option acquisition agreement with Impulsora Minera Santacruz S.A. de C.V., a wholly-owned subsidiary of Santacruz Silver Mining Ltd., to acquire an existing option with Minera Hochschild Mexico S.A. de C.V. ("Hochschild") for the right to acquire a 100% interest of the San Felipe property located in Sonora, Mexico. As at December 31, 2018, the property purchase option was reclassified as an asset held-for-sale as its carrying amount will be recovered principally through sale. A write-down of \$3.7 million was recorded for the year ended December 31, 2018 to measure the asset held-for-sale at the lower of its carrying amount of \$10.6 million and fair value less estimated costs to sell of \$6.9 million. The Company made three of the remaining eight contractual quarterly option payments of \$0.75 million to Hochschild during the year ended December 31, 2019. As at December 31, 2019, the property purchase option was reclassified to property, plant and equipment as its carrying amount of \$9.3 million will be recovered principally through continuing use. On October 8, 2020, the Company settled its remaining contractual option payments with Hochschild through issuance of the Company's common shares to acquire the 100% interest of the San Felipe property (see Note 10). As at March 31, 2021, the carrying amount of the San Felipe property was \$12.4 million included in non-producing properties.

The amount of borrowing costs capitalized as property, plant and equipment was \$0.1 million during the three-month period ended March 31, 2021 (2020: \$0.7 million).

## 8. Deferred revenue

On April 3, 2019, the Company entered into a \$25 million precious metals delivery and purchase agreement (the "Purchase Agreement") with Sandstorm Gold Ltd. ("Sandstorm") for the construction and development of the Relief Canyon Mine. The Purchase Agreement consists of a combination of fixed and variable deliveries from the Relief Canyon Mine. The Purchase Agreement has a repurchase option for the Company exercisable at any time to reduce the variable deliveries to Sandstorm from 4% to 2% by delivering 4,000 ounces of gold plus additional ounces of gold compounded annually at 10%. On initial recognition and as at March 31, 2021, the fair value of the repurchase option was nil.

The Company recorded the advances received on precious metals delivery, net of transaction costs, as deferred revenue and will recognize the amounts in revenue as performance obligations to metals delivery are satisfied over the term of the metals delivery and purchase agreements. The advances received on precious metals delivery is expected to reduce to nil through deliveries of the Company's own production to Sandstorm. The Company determined the amortization of deferred revenue on a per unit basis to be equal to the expected total deliveries of gold ounces over the term of the precious metals delivery and purchase agreements.

Interest expense of \$0.1 million was capitalized as borrowing costs to property, plant and equipment during the three-month period ended March 31, 2021 (2020: \$0.5 million) in connection with the accretion of a significant financing component determined from the advances received on precious metals delivery.

The following are components of deferred revenue as at March 31, 2021:

| Advances received                            | \$<br>25,000 |
|--|--------------|
| Recognition of revenue                       | (3,782)      |
| Deferred revenue                             | 21,218       |
| Deferred transaction costs                   | (390)        |
| Accretion on significant financing component | 1,616        |
| Net deferred revenue                         | <br>22,444   |
| Less: current portion                        | (4,051)      |
| Non-current portion                          | \$<br>18,393 |

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

#### 9. Convertible debenture

On April 3, 2019, the Company issued a \$10 million convertible debenture (the "Convertible Debenture") to Sandstorm due April 3, 2023 with interest payable at 6% per annum and repayable at the Company's option prior to maturity. The funds available under the Convertible Debenture included the principal amount of the \$3 million unsecured, promissory note previously issued to Sandstorm by the Company.

The Convertible Debenture may be converted into common shares of the Company at Sandstorm's option at a conversion price of \$2.14 and may be prepaid at the Company's option at any time prior to the maturity date. The Company recorded a net derivative liability of nil on initial recognition based on the estimated fair value of the conversion and prepayment option and recognized a gain of \$1.8 million in the consolidated statements of loss and comprehensive loss for the three-month period ended March 31, 2021 (2020: \$4.0 million gain) as a result of the change in the estimated fair value of the conversion and prepayment option.

The initial fair value of the principal portion of the Convertible Debenture was determined using a market interest rate for an equivalent non-convertible instrument at the issue date. The principal portion is subsequently recognized on an amortized cost basis until extinguished on conversion or maturity. The remainder of the proceeds are allocated to the conversion option.

Interest expense of nil was capitalized as borrowing costs to property, plant and equipment for the three-month period ended March 31, 2021 (2020: \$0.1 million) in connection with the Convertible Debenture.

On February 1, 2021, Sandstorm converted \$5 million of the principal amount of the Company's \$10 million outstanding Convertible Debenture into an aggregate of 2,336,448 common shares at a conversion price of \$2.14. On March 3, 2021, Sandstorm converted the remaining \$5 million of the principal amount of the outstanding Convertible Debenture into an aggregate of 2,336,448 common shares at the same conversion price.

## 10. Share capital

On April 16, 2020, the Company closed an at-the-market offering agreement (the "February 2020 ATM Agreement") for gross proceeds of \$15.0 million through issuance of 9,014,953 common shares. As part of the February 2020 ATM Agreement, approximately \$0.7 million in transaction costs were incurred and offset against share capital.

On May 13, 2020, the Company completed a bought deal public offering of 10,269,500 common shares at a price of \$2.80 CAD per common share for aggregate gross proceeds of approximately \$20.4 million or \$28.75 million CAD, which included the exercise by the underwriters, in full, of the over-allotment option granted by the Company to the underwriters. As part of the bought deal public offering, approximately \$1.3 million in transaction costs were incurred and offset against share capital, and 1,000,000 warrants for approximately \$0.2 million were issued to the Company's advisor and offset against share capital where each warrant is exercisable for one common share at an exercise price of \$3.50 CAD for a period of two years starting July 9, 2020.

On September 4, 2020, the Company completed a bought deal public offering of 10,204,510 common shares at a price of \$3.86 CAD per common share for aggregate gross proceeds of approximately \$29.8 million or \$39.39 million CAD, which included the partial exercise by the underwriters of the over-allotment option granted by the Company to the underwriters. As part of the bought deal public offering, approximately \$1.7 million in transaction costs were incurred and offset against share capital.

On July 9, 2020, the Company completed the outstanding option acquisition agreement to acquire a 100% interest of the San Felipe property with Hochschild where the Company agreed to issue to Hochschild 1,687,401 of the Company's common shares with a value equal to the outstanding payment of \$3.75 million plus VAT using the 5-day volume-weighted average price on the Toronto Stock Exchange as of the date of the parties' agreement, subject to adjustment in certain circumstances. On October 8, 2020, the Company issued the 1,687,401 common shares to Hochschild.

On January 29, 2021, the Company completed a bought deal public offering of 10,253,128 common shares at a price of \$3.31 CAD per common share for aggregate gross proceeds of approximately \$26.7 million or \$33.94 million CAD, which included the partial exercise by the underwriters of the over-allotment option granted by the Company to the underwriters. As part of the bought deal public offering, approximately \$1.6 million in transaction costs were incurred and offset against share capital.

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

#### a. Authorized

Authorized share capital consists of an unlimited number of common and preferred shares.

|  | March 31,<br>2021             | December 31,<br>2020 |                         |  |  |
|--|-------------------------------|----------------------|-------------------------|--|--|
| <b>Issued</b><br>133,041,451 (2020: 117,975,579) common shares<br>Nil (2020: Nil) preferred shares | \$<br>388,956<br>-<br>388,956 | \$                   | 350,707<br>-<br>350,707 |  |  |

Each non-voting preferred share is convertible, at the holder's option, without payment of any additional consideration by the holder thereof, initially on a one-to-one basis into common shares, subject to adjustment, and in accordance with the terms of the non-voting preferred shares.

## b. Stock option plan

The number of shares reserved for issuance under the Company's stock option plan is limited to 10% of the number of common shares which are issued and outstanding on the date of a particular grant of options. Under the plan, the Board of Directors determines the term of a stock option to a maximum of 10 years, the period of time during which the options may vest and become exercisable as well as the option exercise price which shall not be less than the closing price of the Company's share on the Toronto Stock Exchange on the date immediately preceding the date of grant. The Compensation Committee determines and makes recommendations to the Board of Directors as to the recipients of, and nature and size of, share-based compensation awards in compliance with applicable securities law, stock exchange and other regulatory requirements.

A summary of changes in the Company's outstanding stock options is presented below:

|                              |             | March 31,  |             | Dec | ember 31, |

## c. Share-based payments

There were no stock options granted by the Company during the three-month periods ended March 31, 2021 and 2020. The Company uses the Black-Scholes Option Pricing Model to estimate fair value.

|  | M  | arch 31,<br>2021 | March 31,<br>2020 |
|--|----|------------------|-------------------|
| Share-based payments included in cost of sales<br>Share-based payments included in general and | \$ | -                | \$<br>-           |
| administrative expenses  |    | 806              | 699               |
| Total share-based payments   | \$ | 806              | \$<br>699         |

#### d. Warrants

The warrants that are issued and outstanding as at March 31, 2021 are as follows:

| Number of | Exercise    | Issuance | Expiry       |
|-----------|-------------|----------|--------------|
| warrants  | price (CAD) | date     | date         |
| 1,447,426 | 4.68        | Jun 2016 | Jun 9, 2021  |
| 799,065   | 4.68        | Jul 2016 | Jun 14, 2021 |
| 1,074,999 | 3.12        | Oct 2018 | Oct 1, 2023  |
| 15,889    | 11.32       | Apr 2019 | May 6, 2022  |
| 389,771   | 2.40        | May 2019 | May 13, 2022 |
| 1,241,200 | 2.40        | May 2019 | May 29, 2022 |
| 118,664   | 3.37        | Jul 2019 | Jul 25, 2022 |
| 177,506   | 4.45        | Oct 2019 | Oct 30, 2022 |
| 1,000,000 | 3.50        | Jul 2020 | Jul 9, 2022  |
| 6,264,520 |             |          |              |

## e. Restricted Share Units:

The Company has a Restricted Share Unit Plan under which eligible directors, officers and key employees of the Company are entitled to receive awards of restricted share units. Each restricted share unit is equivalent in value to the fair market value of a common share of the Company on the date of grant with the value of each cash settled award charged to compensation expense over the period of vesting. At each reporting date, the compensation expense and associated liability (which is included in trade and other long-term liabilities in the consolidated statement of financial position) are adjusted to reflect changes in market value. As at March 31, 2021, 122,466 (December 31, 2020: 276,762) restricted share units are outstanding at an aggregate value of \$0.3 million (December 31, 2020: \$0.9 million).

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

#### f. Deferred Share Units:

The Company has a Deferred Share Unit Plan under which eligible directors of the Company receive awards of deferred share units on a quarterly basis as payment for 20% to 100% of their director fees earned. Deferred share units are settled in either cash or common shares at the Company's discretion when the director leaves the Company's Board of Directors. The Company recognizes a cost in director fees and a corresponding increase in equity reserve upon issuance of deferred share units. As at March 31, 2021, 566,529 (December 31, 2020: 519,803) deferred share units are issued and outstanding.

## 11. Weighted average basic and diluted number of common shares outstanding

|   | Three-month<br>period ended<br>March 31,<br>2021 | Three-month<br>period ended<br>March 31,<br>2020 |  |
|---|--|--|--|
| Basic weighted average number of shares Effect of dilutive stock options and warrants | 127,270,944                                      | 87,819,387<br>-                                  |  |
| Diluted weighted average number of shares   | 127,270,944                                      | 87,819,387                                       |  |

Diluted weighted average number of common shares for the three-month period ended March 31, 2021 excludes nil anti-dilutive preferred shares (2020: nil), 10,448,957 anti-dilutive stock options (2020: 7,182,290) and 6,264,520 anti-dilutive warrants (2020: 5,264,520).

#### 12. Non-controlling interests

The Company entered into a joint venture agreement with Mr. Eric Sprott effective October 1, 2019 for 40% non-controlling interest of the Company's Galena Complex with initial contribution of \$15 million to fund capital improvements and operations. Mr. Eric Sprott committed to contributing additional funds to support the ongoing operations alongside the Company in proportion of their respective ownership up to \$5 million for the first year of operations with the Company contributing any potential excess as necessary. After the first year, contributions revert to the proportional percentage of ownership interests to fund capital projects and operations.

The Company recognized non-controlling interests of \$14.3 million equal to the proportionate non-controlling interests' carrying amount of the Galena Complex at initial recognition classified as a separate component of equity. Subsequent contributions and proportionate share changes in equity are recognized to the carrying amount of the non-controlling interests.

### 13. Revenue

The following is a disaggregation of revenue categorized by commodities sold for the three-month periods ended March 31, 2021 and 2020:

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

|                                      |    | March 31,<br>2021 |    | March 31,<br>2020 |
|--------------------------------------|----|-------------------|----|-------------------|

| Other by-products                    | •  | 00                | •  | 4.5               |
| Sales revenue                        | \$ | 83                | \$ | 15                |
| Derivative pricing adjustments       |    | (46)              |    | 36                |
|                                      |    | 37                |    | 51                |
| Total sales revenue                  | \$ | 12,606            | \$ | 12,056            |
| Total derivative pricing adjustments |    | 205               |    | (1,513)           |
| Gross revenue                        | \$ | 12,811            | \$ | 10,543            |
| Treatment and selling costs          |    | (2,625)           |    | (3,278)           |
|                                      | \$ | 10,186            | \$ | 7,265             |

Derivative pricing adjustments represent subsequent variations in revenue recognized as an embedded derivative from contracts with customers and are accounted for as financial instruments (see Note 17). Revenue from contracts with customers is recognized net of treatment and selling costs if payment of those amounts is enforced at the time of sale.

## 14. Cost of sales

Cost of sales is costs that directly relate to production at the mine operating segments and excludes depletion and amortization. The following are components of cost of sales for the three-month periods ended March 31, 2021 and 2020:

|                                | <br>March 31,<br>2021 | March 31,<br>2020 |
|--------------------------------|-----------------------|-------------------|
| Salaries and employee benefits | \$<br>5,581           | \$<br>5,402       |
| Contract services on site      | 5,629                 | -                 |
| Raw materials and consumables  | 2,912                 | 2,647             |
| Utilities                      | 855                   | 943               |
| Other costs                    | 1,701                 | 170               |
| Changes in inventories         | (6,573)               | -                 |
| Inventory write-downs          | 27,379                | 673               |
|                                | \$<br>37,484          | \$<br>9,835       |

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

## 15. Corporate general and administrative expenses

Corporate general and administrative expenses are costs incurred at corporate and other segments that do not directly relate to production. The following are components of corporate general and administrative expenses for the three-month periods ended March 31, 2021 and 2020:

|                                | March 31,<br>2021 |       | March 31,<br>2020 |       |
|--------------------------------|-------------------|-------|-------------------|-------|
|                                | _                 |       |                   |       |
| Salaries and employee benefits | \$                | 518   | \$                | 617   |
| Directors' fees                |                   | 79    |                   | 84    |
| Share-based payments           |                   | 682   |                   | 604   |
| Professional fees              |                   | 477   |                   | 126   |
| Office and general             |                   | 363   |                   | 477   |
|                                | \$                | 2,119 | \$                | 1,908 |

The Company recognized a reduction of approximately \$0.1 million during the three-month period ended March 31, 2021 related to wage subsidies received through the Canada Emergency Wage Subsidy during the COVID-19 pandemic.

#### 16. Income taxes

Income tax expense is recognized based on management's best estimate of the weighted average annual income tax rate expected for the full financial year. The estimated average annual rate used for the three-month period ended March 31, 2021 was 26.5% and for the year ended December 31, 2020 was 26.5%.

The Company's net deferred tax liability relates to the Mexican mining royalty and arises principally from the following:

|   | <br>larch 31,<br>2021 | Dece | mber 31,<br>2020 |
|---|-----------------------|------|------------------|
| Property, plant and equipment Provisions and reserves | \$<br>850<br>(394)    | \$   | 850<br>(391)     |
| Net deferred tax liabilities                          | \$<br>456             | \$   | 459              |

The inventory write-downs and impairments described in Note 6 and 7 will result in certain non-capital losses and timing differences which have not been recorded given uncertainty of recoverability in future periods.

#### 17. Financial risk management

## a. Financial risk factors

The Company's risk exposures and the impact on its financial instruments are summarized below:

## (i) Credit Risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and cash equivalents and trade and other receivables. The credit risk on cash and cash equivalents is limited because the Company invests its cash in deposits with well-capitalized financial institutions with strong credit ratings in Canada and the United States. Under current concentrate offtake agreements, risk on trade receivables related to concentrate sales is managed by receiving payments for 85% to 100% of the estimated value of the concentrate within one month following the time of shipment.

As of March 31, 2021, the Company's exposure to credit risk with respect to trade receivables amounts to \$2.8 million (December 31, 2020: \$2.8 million). The Company believes credit risk is not significant and there was no

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

significant change to the Company's allowance for expected credit losses as at March 31, 2021 and December 31, 2020.

# (ii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they arise. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company's liquidity requirements are met through a variety of sources, including cash, cash generated from operations, credit facilities and debt and equity capital markets. The Company's trade payables have contractual maturities of less than 30 days and are subject to normal trade terms. See Note 2 for discussion of the Company's basis of presentation and going concern.

The following table presents the contractual maturities of the Company's financial liabilities on an undiscounted basis:

|                                 |           |        |    | I      | Mar | ch 31, 2021 | 1  |           |              |
|---------------------------------|-----------|--------|----|--------|-----|-------------|----|-----------|--------------|
|                                 | Less than |        |    |        |     |             |    | Over 5    |              |
|                                 |           | Total  |    | 1 year |     | 2-3 years   |    | 4-5 years | years        |

The following table summarizes the continuity of the Company's total lease liabilities discounted using an incremental borrowing ranging from 5% to 12% applied during the period:

|  | N  | larch 31,<br>2021 | Dece | mber 31,<br>2020 |
|--|----|-------------------|------|------------------|
| Lease liabilities, beginning of period | \$ | 6,377             | \$   | 7,025            |
| Additions                              |    | 67                |      | 1,962            |
| Lease principal payments               |    | (667)             |      | (2,594)          |
| Lease interest payments                |    | (152)             |      | (759)            |
| Accretion on lease liabilities         |    | 148               |      | 743              |
| Lease liabilities, end of period       | \$ | 5,773             | \$   | 6,377            |

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

### (iii) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and price risk.

#### (1) Interest rate risk

The Company is subject to the interest rate risk of U.S. LIBOR rate plus 5% per annum from the existing Cosalá Operations' pre-payment facility. Interest rates of other financial instruments are fixed.

## (2) Currency risk

As at March 31, 2021, the Company is exposed to foreign currency risk through financial assets and liabilities denominated in CAD and MXN:

Financial instruments that may impact the Company's net loss or other comprehensive loss due to currency fluctuations include CAD and MXN denominated assets and liabilities which are included in the following table:

|                             | As at March 31, 2021 |       |    |       |  |
|-----------------------------|----------------------|-------|----|-------|--|
|                             |                      | CAD   |    | MXN   |  |
| Cash and cash equivalents   | \$                   | 402   | \$ | 124   |  |
| Trade and other receivables |                      | 65    |    | 2,565 |  |
| Trade and other payables    |                      | 2,535 |    | 4,885 |  |

As at March 31, 2021, the CAD/USD and MXN/USD exchange rates were 1.26 and 20.60, respectively. The sensitivity of the Company's net loss and comprehensive loss due to changes in the exchange rates for the three-month period ended March 31, 2021 is included in the following table:

|                          | CA    | CAD/USD   |       | N/USD     |
|--------------------------|-------|-----------|-------|-----------|
|                          | Excha | inge rate | Excha | ange rate |
|                          | +/-   | +/- 10%   |       | - 10%     |
|                          |       |           |       |           |
| Approximate impact on:   |       |           |       |           |
| Net loss                 | \$    | 214       | \$    | 199       |
| Other comprehensive loss |       | (31)      |       | 11        |

The Company may, from time to time, employ derivative financial instruments to manage exposure to fluctuations in foreign currency exchange rates.

As at March 31, 2021 and December 31, 2020, the Company does not have any non-hedge foreign exchange forward contracts outstanding. During the three-month period ended March 31, 2021, the Company did not settle any non-hedge foreign exchange forward contracts (2020: settled non-hedge foreign exchange forward contracts to buy 26.0 million MXN and recorded a realized gain of nil through profit and loss).

## (3) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments in the market. As at March 31, 2021, the Company had certain amounts related to the sales of concentrates that have only been provisionally priced. A ±10% fluctuation in silver, zinc, lead, and gold prices would affect trade receivables by approximately \$0.2 million (December 31, 2020: \$0.3 million).

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

As at March 31, 2021 and December 31, 2020, the Company does not have any non-hedge commodity forward contracts outstanding. During the three-month period ended March 31, 2021, the Company did not settle any non-hedge commodity forward contracts (2020: settled non-hedge commodity forward contracts for approximately 1.6 million and 3.3 million pounds of zinc and lead, respectively, and recorded a realized gain of nil through profit and loss).

Net amount of gain or loss on derivative instruments from non-hedge foreign exchange and commodity forward contracts recognized through profit or loss during the three-month period ended March 31, 2021 was nil (2020: nil). Total amount of gain or loss on derivative instruments including those recognized through profit or loss from the Company's Convertible Debenture during the three-month period ended March 31, 2021 was a gain of \$1.8 million (2020: gain of \$4.0 million).

#### b. Fair values

The fair value of cash, restricted cash, trade and other payables, and other long-term liabilities approximate their carrying amounts. The methods and assumptions used in estimating the fair value of other financial assets and liabilities are as follows:

- Cash and cash equivalents: The fair value of cash equivalents is valued using quoted market prices in active markets. The Company's cash equivalents consist of money market accounts held at financial institutions which have original maturities of less than 90 days.
- Trade and other receivables: The fair value of trade receivables from silver sales contracts that contain
  provisional pricing terms is determined using the appropriate quoted forward price from the exchange that
  is the principal active market for the particular metal. As such, there is an embedded derivative feature
  within trade receivables.
- Convertible debenture, promissory note, and loan payable: The principal portion of the convertible debenture, promissory note, and loan payable are carried at amortized cost.
- Embedded derivatives: Revenues from the sale of metals produced from silver sales contracts since the
  commencement of commercial production are based on provisional prices at the time of shipment.
  Variations between the price recorded at the time of sale and the actual final price received from the
  customer are caused by changes in market prices for metals sold and result in an embedded derivative in
  revenues and accounts receivable.
- Derivatives: The Company uses derivative and non-derivative instruments to manage financial risks, including commodity, interest rate, and foreign exchange risks. The use of derivative contracts is governed by documented risk management policies and approved limits. The Company does not use derivatives for speculative purposes. The fair value of the Company's derivative instruments is based on quoted market prices for similar instruments and at market prices at the valuation date.

The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities
  in active markets, inputs other than quoted prices that are observable for the asset or liability (for example,
  interest rate and yield curves observable at commonly quoted intervals, forward pricing curves used to
  value currency and commodity contracts and volatility measurements used to value option contracts), or
  inputs that are derived principally from or corroborated by observable market data or other means.
- Level 3 inputs are unobservable (supported by little or no market activity).

Notes to the condensed interim consolidated financial statements For the three-month periods ended March 31, 2021 and 2020 (In thousands of U.S. dollars, unless otherwise stated, unaudited)

|                               | <br>March 31,<br>2021 | Decen | nber 31,<br>2020 |
|-------------------------------|-----------------------|-------|------------------|
| Level 1                       |                       |       |                  |

# 18. Segmented and geographic information, and major customers

## a. Segmented information

The Company's operations comprise of four reporting segments engaged in acquisition, exploration, development and exploration of mineral resource properties in Mexico and the United States. Management has determined the operating segments based on the reports reviewed by the chief operating decision makers that are used to make strategic decisions.

## b. Geographic information

All revenues from sales of concentrates for the three-month periods ended March 31, 2021 and 2020 were earned in Mexico and the United States. The following segmented information is presented as at March 31, 2021 and December 31, 2020, and for the three-month periods ended March 31, 2021 and 2020. The Cosalá Operations segment operates in Mexico while the Galena Complex and Relief Canyon segments operate in the United States.

## c. Major customers

The Company sold concentrates and finished goods to two major customers during the three-month period ended March 31, 2021 (2020: one customer) accounting for 89% and 10% (2020: 100%) of revenues.

# 19. Contingencies

Due to the size, complexity and nature of the Company's operations, various legal and tax matters arise in the ordinary course of business. The Company accrues for such items when a liability is both probable and the amount can be reasonably estimated.

In November 2010, the Company received a reassessment from the Mexican tax authorities related to its Mexican subsidiary, Minera Cosalá, for the year ended December 31, 2007. The tax authorities disallowed the deduction of transactions with certain suppliers for an amount of approximately \$9.6 million (MXN 196.8 million), of which \$4.1 million (MXN 84.4 million) would be applied against available tax losses. The Company appealed this reassessment and the Mexican tax authorities subsequently reversed \$4.6 million (MXN 94.6 million) of their original reassessment. The remaining \$5.0 million (MXN 102.2 million) consists of \$4.1 million (MXN 84.4 million) related to transactions with certain suppliers and \$0.9 million (MXN 17.8 million) of value added taxes thereon. The Company appealed the remaining reassessment with the Mexican Tax Court in December 2011. The Company may be required to post a bond of approximately \$0.9 million (MXN 17.8 million) to secure the value added tax portion of the reassessment. The deductions of \$4.1 million (MXN 84.4 million), if denied, would be offset by available tax losses. The Company accrued \$1.0 million (MXN 19.9 million) in the consolidated financial statements as at December 31, 2018 as a probable obligation for the disallowance of value added taxes related to the Mexican tax reassessment. As at March 31, 2021, the accrued liability of the probable obligation was \$1.0 million (December 31, 2020: \$1.0 million).

#### 20. Subsequent events

On April 29, 2021, the Company issued a \$12.5 million CAD convertible debenture to Royal Capital Management Corp. due April 28, 2024 with interest payable at 8% per annum, repayable at the Company's option prior to maturity subject to payment of a redemption premium, and convertible into common shares of the Company at the holder's option at a conversion price of \$3.35 CAD.
